

Dr. R. Ilker Adiguzel

US Army Engineer Research Development Center
Construction Engineering Research Laboratory (CERL)

Director CERL since June 2006, Dr. R. Ilker Adiguzel has held almost every technical position in the laboratory related to infrastructure and environmental sustainability. He was first employed at CERL while earning his doctorate in civil engineering from the University of Illinois at Urbana-Champaign (UIUC). Over time he moved up the ranks to become chief of the Materials Science and Technology Division, chief of the Environment Processes Branch, CERL's first deputy director, and, in June 2005, acting director. Dr. Adiguzel brings an extraordinary depth of experience to his current position. That experience combined with his passionate commitment to dual-use technologies consistently benefits the military and the public alike.
