

Patrick G. Barry, PE
Director
USDA-ARS Facilities Division

Patrick G. Barry (Pat) is the Director of the US Department of Agriculture – Agricultural Research Services (ARS) Facilities Division. The Facilities Division is responsible for managing major design and construction activities for ARS as well as asset management, real property, and safety and health programs for the agency.

Pat has spent over 32 years as an engineer, both in private industry and with the Federal Government. Over the course of his career he has been a design engineer, a construction engineer, and a project manager working on such diverse projects as bridges, highways, commercial buildings, and laboratory facilities.

Pat earned a B.S. in Civil Engineering from Rutgers College of Engineering and an M.S. in Engineering from George Washington University; he is a licensed Professional Engineer in Maryland and Virginia.
