

Gary K. Jones

Washington, DC Representative Federal Laboratory Consortium for Technology Transfer

Gary Jones is the Washington, DC Representative for the Federal Laboratory Consortium for Technology Transfer (FLC), a position he has held since 2005. As the DC Representative, Mr. Jones is responsible for providing FLC coordination in the DC area with federal agencies and their laboratories, Congressional staff, and trade, professional and other organizations. He brings over twenty-three years of professional experience to his current position, including seven years in academia and over sixteen years in industry and government. Most recently, Mr. Jones was on the faculty of American University's Washington Semester Program, where he served as an Academic Director for International Business & Trade. He has also lectured on global R&D management in the George Washington University graduate business program and served as an adjunct faculty member at University of Maryland University College, Graduate School of Management & Technology. Prior to his academic experience, Mr. Jones' career included work as an exploration geophysicist in the energy industry, a policy analyst supporting the U.S. Department of Energy, and a researcher with the Virginia Department of Economic Development. He holds an M.B.A from the University of Richmond and a B.S. in Geophysics from Virginia Polytechnic Institute and State University, and has studied technology management and international business at the post-graduate level.
