

David McFeeters-Krone

Intellectual Assets, Corp

Mr. McFeeters-Krone has a strong background in licensing from positions with MIT, NASA, and Intel. Since starting his firm, he has provided Intellectual Property strategy services to DOD, NASA, Sharp Technology Ventures, Tektronix, Deloitte, OHSU, Providence Medical Center, the National Technology Transfer Center, and numerous small firms. His projects entail portfolio triage, technology evaluation, licensing and IP process implementation.

He currently serves as a consultant for FirstLink and has closed over a dozen agreements in the past year. He is the membership coordinator of the Licensing Executives Society (Portland Chapter) and a contributing author for the Association of University Technology Managers' (AUTM) *Technology Transfer Practice Manual*. He holds a Physics degree from the University of Michigan, an MBA from the University of Pittsburgh, and is an adjunct professor at Portland State University. He also serves on the advisory board of Innovation Assets Group.
