

Gerald L. Mora

Gerald L. Mora is the Director of New Mexico Tech's Technology Transfer Support Group and the State of New Mexico Partnership Intermediary for the Air Force Research Laboratory (AFRL) at Kirtland Air Force Base (KAFB). He is also the AF focal point for the NDEP Program. He has over 35 years experience in Systems Engineering including 15 years experience in Technology Transfer. He established the Office of Tech Transfer for Education in 1994 and has guided it's development into the AFRL La Luz Academy (a hands-on STEM program for 5th through 12th+ grades). This program has received numerous Commendations and awards including Federal Laboratory Consortium Award for Excellence in Technology Transfer, commendations from the entire NM Congressional Delegations. Mr. Mora was awarded the 2001 New Mexico Distinguished Public Service Award for his guidance of this program. Mr. Mora has numerous publications based on his Systems Engineering work and his passion for education outreach. His earliest education outreach presentation, "Computers in the Classroom - A Call for Action", presented at the 9th National Engineering and Science Symposium sponsored by the Mexican American Engineering Society (MAES), Anaheim, CA in 1985.
