

**Harold (Hal) S. Morgan, Ph.D.**  
**Sandia National Laboratories**

Hal Morgan is currently Senior Manager, Industry Partnerships and Strategy at Sandia National Laboratories. In this position he is responsible for leading Sandia's Technology Transfer program with industry. Prior to this assignment, he managed the development and application of high performance computational mechanics codes and simulation capabilities for nuclear weapons, energy, and industry programs at Sandia. Dr. Morgan has led Sandia's successful 17-year old industry partnership with the Goodyear Tire and Rubber Company since its inception. He has BS and MS degrees in Mechanical Engineering and a PhD degree in Engineering Mechanics, all from Southern Methodist University.
