

**John Slanina**  
**State Science and Technology Institute**

John Slanina is a Policy Analyst for the State Science and Technology Institute (SSTI). As a national non-profit organization, SSTI works to assist states and communities as they build tech-based economies, conduct research on best practices and trends in tech-based economic development, and encourage cooperation among and between state and federal programs. Prior to joining SSTI, Mr. Slanina was a Science and Technology Policy Graduate Fellow at the National Academies in Washington, D.C., as well as a research assistant at the Delft Institute of Technology in the Netherlands. He attained his M.S. in Mechanical Engineering from the Georgia Institute of Technology, performing research in microfabrication and biosensor design. He recently completed his Master's degree in Public Policy from Georgia Tech, where his research included the investigation of bibliometrics to analyze regional economies and the incorporation of innovations in the manufacturing sector.
