

Cynthia E. Wesolowski
DOE Argonne National Laboratory

Cynthia Wesolowski has been an employee of Argonne National Laboratory for over 20 years. She is Industry Liaison for organizations seeking access to Argonne's scientific and engineering expertise and research facilities. In this capacity, she interfaces extensively with the private sector, state and local governments, economic development organizations, and federal agencies. Ms. Wesolowski has interfaced with technology transfer organizations since 1992. Prior to that time, her experience had been in the Chemical Technology Division at Argonne National Laboratory.

Ms. Wesolowski received her degree in Business Management. She serves as Argonne's representative to the Federal Laboratory Consortium where she also has been a member of the State and Local Government Committee. Ms. Wesolowski is the interface with many centers that are established to meet the technological and business needs of U.S. industry.
